

## Fire Saturday Badly Damaged Kirkland Hotel

Originated About in Center of Attic and Spread Through Attic to Main Floor and Reached by Firemen—Repairs Made to Roof Sunday—Was Two-Alarm Fire.

Fire of unknown origin badly damaged the Kirkland Hotel at Main street and Clinton avenue late Saturday afternoon, but the building was saved from destruction by the prompt discovery of the fire and the efforts of the fire department. The fire was confined to the attic and roof but the lower floors were damaged by water and smoke.

The Kirkland is of frame construction, four stories high and the fourth floor or attic is used as bedrooms for the help at the hotel. It was about 4:15 o'clock that Charles White, chef at the hotel, who was sleeping in his room on the fourth floor, was aroused by the smell of smoke.

He hastily descended to the ground floor and spread the alarm. In the meantime the neighbors had seen smoke pouring from the windows of the upper floor and telephoned in an alarm to the Central Fire Station. An alarm was also turned in from Box 86 and another from Box 84.

When Fire Chief Joseph L. Murphy arrived he found the upper part of the hotel in flames and huge volumes of smoke pouring out of the building. He promptly sent in a second alarm calling out other fire companies.

Miss Frances Smith, a waitress at the hotel, was trapped on the fourth floor by the flames, but she managed to get out on the porch on the north side. Her plight was seen by the firemen who promptly raked a ladder and she was taken down from her dangerous position.

By this time the fire had spread throughout the entire fourth floor and was breaking out through the roof.

Seven lines of hose were laid and the big aerial truck from the Central Station swung its huge ladders against the side of the building while firemen swarmed up the ladders with the hose. The other fire companies that were equipped with ladders also aided them against the building and firemen went up them with the lines of hose, and soon seven streams of water were being poured into the building.

The pump was also used in throwing water onto the building. When the fire companies first reached the hotel it looked as though the entire building was doomed, but the quick work of the firemen in spreading lines of hose on the fire soon had its effect and within an hour the fire was brought under control.

The three lower floors are damaged by water and smoke. Most of the furnishings were saved, however, by the firemen using the salvage covers.

The fire itself was confined to the fourth floor and roof.

On Sunday Rifebush & Son, contractors, went to work on the roof and patched it up temporarily. Sufficient repairs were made to the building so that it was possible for about eight of the guests to continue to make the hotel their home today.

The hotel is owned by John J. Egan who has conducted the hotel for the past eight years. He took over the control of the hotel from Samuel Sainpugh.

While the fire was in progress it was necessary to divert traffic to other streets and members of the police department handled traffic and the fire department worked with but little interference as fire lines were stretched.

Chief Murphy said he had not estimated the amount of damage. He said that it appeared that the fire started in the center of the attic and spread like a flash through the entire fourth floor and broke out through the roof in several places.

The lower floor ceilings and side walls were damaged by water which seeped through from the top floor as water was poured onto the fire.

## Public Schools Re-open Tuesday

The public schools of the city reopened after the summer vacation on Tuesday morning. The Kingston High School also reopens that day.

## RESIDENT NEAR END OF VOYAGE ON ASTOR YACHT

Washington, Sept. 4 (AP)—President Roosevelt cruised restfully off the Virginia Capes this Labor Day, nearly nearing the White House for second six months at the government's helm.

The last official word from the presidential yacht pointed it toward the entrance of Chesapeake Bay at 14-knot clip after a day's meal weather had enticed the president to take a whale-boat out with his host, Vincent Astor.

Stephen Early, the president's secretary, reported to the Navy Department that two members of the crew went along with Mr. Roosevelt to Astor, but it was the president's secretary, Mr. Vincent Astor, who was seen, sailing respectively as

power and crew of the whale-boat, he called it over ocean waters, two deep-throated, until it was safely to the mother ship several hours later.

Two destroyers, the Manley and the Cramo, conveyed the yacht as usual.

## FORD CHIEF HOLD-OUT OF NRA: SURVEY GIVEN

Washington, Sept. 4 (AP)—Henry Ford was Labor Day's chief NRA hold-out.

The Detroit manufacturer, silent about his plans, has until tomorrow to join the blue eagle boys by subscribing to the automobile code.

While awaiting Ford's decision, NRA officials surveyed their accomplishments to find:

President Roosevelt has promulgated 15 codes.

Deputy administrators were drafting reports on 30 more on which hearings have been completed. The troublesome soft coal code was one of the chief still unsigned.

Hearings were set for 20 recommended codes.

Over 250 temporary wage and hours scales were approved.

## French Are Urged To Prepare; No Desire For War Says Hitler

(By The Associated Press.)

Linked today as a chapter in the weeks-old Austro-German controversy were statements by two French leaders approving France's new frontier fortifications and pronouncements by heads of the Austrian and German governments about war and military training.

Said Chancellor Hitler of Germany: "The world must not think we have the slightest wish to win added laurels on the battlefield." He spoke at a Nazi convention in Nuremberg after 110,000 picked storm troops had paraded before him.

Chancellor Dollfus of Austria said one of his most important achievements was the plan for increasing the nation's army from 22,000 to 30,000 and he urged young men to join the army.

Foreign Minister Paul-Boncour of France repeated his nation's determination to safeguard the independence of Austria, and said "France is strong enough to resist attempts at violence."

He mentioned Premier Daladier's visit to a new French chain of defenses on the German frontier as a "fitting response to attitudes of which the least one can say is that they trouble profoundly the atmosphere of peace."

Lucien Hubert, vice president of the French senate, in a memorial service at Charleville, France, yesterday, asserted: "I have not the right to affirm that Hitler wants war. But it is certain he has started the German people on a dizzy course in which the pilot may lose control."

Preparedness, he said, would be advisable "so long as the menace (referring to Hitlerism) lasts."

In like notes Saturday Italy, France and Great Britain approved the Austrian request to raise a special corps of 8,000 men for duty against "terrorist elements" within Austria and on the German border.

## FORD STILL VACATIONS AT HIS MOUNTAIN CAMP

Big Bay, Mich., Sept. 4 (AP)—Whatever may be Henry Ford's plans for compliance, or non-compliance, with the national automobile code, the motor magnate apparently is not going to let them interfere with the vacation he and his wife are enjoying in their Huron mountain retreat.

Far from a telephone or telegraph office. With the deadline for acceptance of the code less than 24 hours away, there were no indications that Mr. Ford in fact, the best information available was that he would remain in his 16-room "cabin" until Friday or Saturday.

Neither was there any indication that he was taking steps to compose his differences with promulgators and administrators of the automotive code and the National Recovery Act. Those differences pivot about the provisions for collective bargaining with workers and the right of the board administering the code to inspect the books of signatory companies.

Ford objects to letting competitors view the inside workings of the close corporation which he fathered and dominates.

## INJURED IN CRASH OF CARS NEAR WEST HURLEY BRIDGE

A Whippet sedan owned and driven by Michael Bineth of 1049 East 15th street, Brooklyn, traveling south on the Ashokan boulevard, was in collision with a Ford car owned and driven by E. W. Brigham of 625 East 25th street, Brooklyn, about 6 p. m. Sunday. The accident happened near the railroad bridge at West Hurley, when the Ford skidded on the wet roadway.

Miss Elizabeth Bahman, with Bineth, was injured and was taken in an ambulance to the Kingston Hospital. Mr. Brigham's mother, who was riding with him, suffered from shock. The Whippet was badly damaged and was towed to the Fire Crest garage. The Ford was not badly injured. Deputies from the Kingston and Greene counties called to the sheriff's office and made an investigation.

## AMBULANCE OFFERS MORE

Saturday the ambulance removed Louis Karp from the Kingston Hospital to his home, 23 Grove street, and George Lambson from the Central hospital to the Kingston Hospital.

## Blue Eagle Rules Labor Day Holiday

Drive To Re-employ The Idle and Increase Wages Keynote of Mass Meetings Called All Over The Land Today.

Washington, Sept. 4 (AP)—NRA's Blue Eagle took possession today of the country's Labor Day celebration. The government led effort to re-employ the idle and increase the wages of workers was the keynote of mass meetings and gatherings called all over the land which marked a climax to, though not the end of, the nation-wide campaign for placing Eagle emblem of cooperation in every business house.

Recovery officials advanced no claim of realization however for their objective of re-employing five to six million persons. They awaited dependable figures.

A discord in the day's celebration was Henry Ford's failure to subscribe to the automobile code which becomes effective tomorrow. Also troublesome was the lack of complete agreement between mine labor and Appalachian bituminous coal operators.

Administrator Hugh S. Johnson and his principal assistants used the holiday to expound anew the doctrine of the recovery movement. Demanding swift decision upon their return was the conflict between employer and employee over labor unionism.

Johnson was considering asking Attorney General Cummings for a formal interpretation of the law, while President Roosevelt was expected to take a hand in the dispute upon his return.

The extent of the clearance was indicated in the Labor Day statement of William Green, president of the American Federation of Labor, that the union was essential "to carry out the purposes of the recovery program" and the appeal to business of William L. Harriman, president of the Chamber of Commerce of the United States, that all codes incorporate the automobile provision reserving employers the right to hire and fire on the basis of merit.

## Doolittle's Speed Record In Danger

Chicago, Sept. 4 (AP)—Jimmie Doolittle's speed record for land planes of 234.33 miles-per-hour stood a good chance of being displaced today by James R. Wedell, of Patterson, La., at the international air races.

Flying a racing plane of his own design, Wedell yesterday negotiated a three kilometer straight way course at an average of 236.34 miles per hour, bettering Doolittle's speed, but it wasn't official.

As he climbed out of the cockpit he said he would try for the official record in a trophy race today. His speed yesterday was not recognized because he carried no biograph.

The main event of Sunday's program was won by Roy Minor, of Los Angeles, who took the 50 mile race at 197.40 miles an hour to receive the \$1,500 Chicago Daily News prize. Art Chester, of Joliet, Ill., was second, and Gordon Israel, of Robertson, Mo., third.

Chester was first in a 3 mile race with a 181.10 mile speed. Leland S. Miles, of Oshkosh, Wis., finished close behind. Whitman won the race for 200 cubic inch displacement planes, averaging 110.11 miles an hour. Lyman Voelgel, of Bloomington, Ill., was second, and Walter Davock, of Detroit, third.

After winning the women's free-for-all, Mrs. May Halipon of St. Louis, who won her ship over the landings. She suffered only minor injuries. Florence Kingsmith, of Minneapolis, was second and Marie Bowman, of Los Angeles, third.

## Body Of Man Was Found In River

The body of an unidentified man, evidently a Hebrew, was found floating in the Hudson river Sunday evening after 7 o'clock and local police today were conducting investigations in the hope of learning his identity.

A note received by teletype from Rhinecliff stated that the man was about 5 feet 9 inches tall, weighed 260 pounds, had gray hair, slightly bald in front, gray whiskers and mustache.

In his clothing was \$1.65, a Hebrew newspaper dated August 29 and a key ring. On the ring was a tag bearing the name of Segal. There were two numbers, O. G. 265 and A 24063 on the tag also.

## PAYLESS FURLONGS FOR POSTAL EMPLOYEES TO END

Washington, Sept. 4 (AP)—Labor Day brought good news to postal employees—their payless furloughs will be suspended September 20.

The announcement was made in Atlantic City today by Postmaster General James A. Farley who said he was doing it because he believed the nation is on the road to prosperity.

Last June the order was issued providing a 3-day furlough without pay for employees in the postal service, during the three month period from July 1 to September 30.

## Notorious Outlaw Escapes From Jail In Dallas Texas

Harvey Bailey, Charged With Kidnaping of C. F. Urschel, Escapes From Jail Early Today—Fled in Old Automobile.

Dallas, Tex., Sept. 4 (AP)—Harvey Bailey, charged with the kidnaping of Charles F. Urschel, Oklahoma City oil millionaire, and with the shooting of four officers and their prisoner in Kansas City June 7, escaped from Dallas county jail at 7 a. m. today.

The notorious outlaw leader escaped as he was being taken to breakfast. He was reported to have fled with another prisoner after drawing a pistol on the guard.

A police radio report said the men fled north in an old model automobile.

Bailey was a leader in the break at the Kansas state prison at Lansing last Memorial Day. He had been held in the Dallas county jail since his capture several weeks ago on the R. G. (Boss) Shannon farm, near Paradise, Texas.

He was indicted with a number of others in the Urschel kidnaping, and was to have been transferred shortly to Oklahoma City to stand trial on that charge.

## Heavy Rains Raise Ulster Co. Streams

Reports From Former Flood Areas Show Waters in Streams as High But Not Over Banks This Morning—No Water Damage Reported Yet.

The heavy rains of Saturday night and all day Sunday have raised the streams in Ulster county, but from various sections of the recent flood area it was reported that while the water was high none of the streams had gotten over their banks, and flood conditions were not expected unless heavy rains continued.

At Phenicia in the area where many people were trapped by high water recently it was stated that while all of the streams were high none had overflowed their banks, and that flood conditions were not expected.

From Rosendale word came that while the Rondout creek was high it was still within its banks. The same condition prevailed at Ellenville and Nanaucho.

All day Sunday heavy rain prevailed but auto traffic was unusually heavy, especially on Route 9-W, but the majority of auto drivers were extremely careful and no serious accidents were reported in the county over the week-end.

County Superintendent of Highways James F. Loughran stated this morning he had received no reports of washed out roads in the county.

## CLINIC SCHEDULE AT BENEDICTINE HOSPITAL

The first clinic to be held at the Benedictine Hospital this week will be the Pre-Natal clinic which will be held on Tuesday afternoon, September 5, from 4 to 5 o'clock. Expectant mothers who attend this clinic will receive medical care and advice.

The clinic for the Diseases of the Stomach will be held on Wednesday morning from 10 to 12 o'clock. The diagnosis and treatment of this clinic will be in charge of several members of the staff.

The Gynecological Clinic will be held on Thursday afternoon from 2 to 4 o'clock.

Any information regarding the above clinics may be obtained by communicating with the Benedictine Hospital either by letter or phone. Telephone 2500.

## TWO INJURED WHEN AUTO UTSETS AT HIGH FALLS

A Chevrolet coach owned by Joseph Schneider of 1295 Amsterdam avenue, New York city, and driven by Frank Arth of Bogota, N. J., upset when brakes were suddenly applied, near the High Falls bridge about 9 o'clock Sunday morning and was badly damaged. Marjorie Terry, 15, of 122 East 112th street, New York city, sustained an injury to her left leg and suffered from shock.

She was taken to the Benedictine Hospital. Edward Schneider, 31, son of the owner of the car, was bruised. All are guests at the Schramm Farm at Kripplush. Deputy Sheriff Fred Greene investigated the accident.

## NECKLESS DRIVER FIRED \$10

Frederick Petersen of St. Albans was fined \$10, which he paid, when arraigned before Justice H. E. McKenzie at Port Ewen Sunday on a charge of reckless driving preferred by Deputy Sheriff Landon Decker.

Petersen was driving toward New Paltz, when near St. Remy he lost control of his car and it went into a ditch. A passerby, James Delaney, of Brookville, received a cut over the left eye that it took five stitches to close, when he was taken to Dr. Ross for treatment.

## Two Cars Damaged

Thomas J. Duffy, Jr., of 225 Hasbrouck avenue, reported to the police department that Sunday afternoon his car was in collision with a car driven by James A. Lastratta of Brookville at Albany and Foxhall avenues. Both cars were damaged, but no one was injured.

## West Palm Beach Cut Off From World

West Palm Beach, Fla., Sept. 4 (AP)—A blanket of silence lay over a 75-mile strip of the Florida east coast north of here today after a tropical hurricane buffeted the area during the night.

Storm winds ranging from 65 to 75 miles an hour cut West Palm Beach off from the outside world, and tore down wire communications northward to Vero Beach. Within the area lie Stuart and Fort Pierce.

Highways were blocked with trees and traffic was at a standstill. Vero Beach, at the northern edge, reported a falling barometer and increasing winds this morning.

Roads were ripped from buildings and trees blown down but the damage was of comparatively superficial nature, early reports indicated here. Palm Beach could not be reached for a check of damage there.

Darkness and torrential rains prevented more than a cursory survey of the immediate territory. Two persons were treated for injuries at the hospital here. One was a youth blown through a plate glass window and cut. The other was a girl who suffered an ankle injury when blown from her feet by the storm.

Fire Chief A. P. Sadler reported wind instruments at the Southboro fire station registered gusts as high as 100 miles an hour while the storm was at its height at midnight.

Meanwhile, reports from Okeechobee and Clewiston, on the great shallow Lake Okeechobee indicated the storm may have passed inland early today.

Hundreds of persons fled the Okeechobee region during the night, by train, truck and automobile. Whether most of the populace had reached higher ground was not known because of the impaired communications. Eight hundred were brought out by train from the western shores of the lake.

A train brought an undetermined number of refugees from the eastern lake shore encountering 59 to 70 mile gales en route. The train was delayed two hours because the winds blew a coal chute across the track at Indiantown.

A steady stream of lowland dwellers came into the ridge section around Sebring during the night.

## Three Injured At West Park Sunday

Three people were injured Sunday night when their car left the road near the Sacred Heart Orphanage at West Park and turned over. The car was being driven by Miloslav Kincner, 32, of New York, who informed the authorities that he was on the way from New York city when he observed a car on the wrong side of the road. He attempted to pass it and as he did so another car hooked into his wheel and his car shot across the road, up a bank and turned over in the ditch.

Coroner W. Norman Conner received a telephone call from the Kingston Hospital of the accident and A. J. Keator and H. M. Barnhart of the coroner's office drove to the scene in Mr. Conner's private ambulance and removed Mrs. Kincner and Mrs. Speel, also of New York city, to the Kingston Hospital where they were treated by Dr. D. S. Myers for wounds and cuts about the face.

Mrs. Speel was also injured about the back. Her young son, who was also in the car, was uninjured. Mr. Kincner, who was cut on the chin and face, refused to go to the hospital and remained by the wrecked car which was later towed away by the wrecker from Doc Smith's garage.

## Three Injured In Broadway Collision

This morning about 7 o'clock as David A. Freer, Jr., of 237 West Chestnut street, was driving down Broadway the Pontiac sedan he was operating was in collision with a Chrysler coupe driven by Mrs. George Cina of 57 Chambers street.

Mr. Freer and Mr. and Mrs. Cina were rushed to the Kingston Hospital in a Roosa taxi, and the Cina's after having their wounds dressed were able to leave. Mr. Cina was cut on the leg and his wife cut on the face and leg, but not seriously hurt.

Mr. Freer was the more badly injured of the three. He was cut about the body and an X-ray will be taken to determine if he sustained internal injuries. He was hurried against the steering wheel of his car with such force that the wheel snapped off.

According to the report filed with the police by Mrs. Cina she was driving up Broadway and there was a car ahead of her which stopped suddenly. She applied the brakes to her car which skidded on the wet pavement and crashed into the Freer car which was on the way down Broadway.

Both cars were badly damaged and towed to garages for repairs.

Released on Bail.

Bradley Caton, 22, of New York city, and John Robinson, 22, of 112 West 54th street, New York, were arraigned before Commissioner A. C. Connelley Sunday, charged with violation of the national prohibition act. They were released on bail.

The two had been arrested by hoodlums and committed to the Hudson jail, where they were held until federal agents in Kingston could come and get them.

## Two Hurricanes Strike Florida And Texas, 100 Reported Dead

Thousands Reported Injured—Many Fleeing Homes Fearful of Floods—Texas Awaits Devastating Storm—Havana Government Mobilizes Relief for 100,000 Homeless—Coast Guard Boats in Gulf of Mexico Fight Heavy Seas—Texas Coast Shipping Paralyzed.

(By The Associated Press.)

One hurricane smote Florida today and another shrieked through Texas, after killing more than 100 people in Cuba and injuring thousands.

From lowland homes in the Everglades, residents fled by the hundreds, fearful of floods in the wake of the winds. A 75-mile strip of Florida coast north of West Palm Beach lay lost to the world, all communications slashed.

The storm that roared out of the Caribbean and apparently was due to hit Texas today was called the most devastating of the season, one that few ships could withstand. It sent craft scurrying to port. As Cuba surveyed the wreckage it inflicted, the government of Havana sought to mobilize quick relief for the 100,000 estimated to be homeless, the thousands were described as facing starvation in Cardenas, apparently the hardest hit. Interior Secretary Laredo Bru said he would dispatch truckloads of rice, beef and other food there today.

The two storms were headed across American territory inhabited by perhaps a million persons. Warnings of dangerous winds went up along most of Florida's east coast and practically the whole coast of Texas.

At least 500 persons left their homes in the Everglades region around Lake Okeechobee and fled in trains and trucks. Within the silent area north of West Palm Beach the Fort Stuart and Fort Pierce. In other sections darkness and driving rain thwarted attempts to survey the damage. The storm was said to have roared inland north of West Palm Beach.

In the Gulf of Mexico three coast guard boats fought their way out of Pascagoula, Miss., toward the steamer Northern Star, reported crippled with 23 men aboard.

Along the Texas coast, where shipping lay paralyzed, an exodus from coastal towns began. Half of the 500 residents of Port Aransas on Mustang Island fled and the others batted down for a blow.

The storm that was smiting Florida had swept the northern Bahamas yesterday. There was only slight damage at Nassau but a 125-mile wind inflicted terrible damage at Harbour Island, unroofing public buildings, churches and small houses. Wharves were wrecked and the government wireless blown down. Some boats were reported lost. No fatalities were announced, but no news came from some of the islands in the group.

Reports of ten dead and 20 missing at devastated beaches near Rancho Veloz increased the Cuban casualty list. President De Cespedes was expected to return to Havana today, bringing first-hand reports of the terrific wreckage in Matanzas province.

Alarmed at reports that famine and disease threaten many north coast cities, the government sent trucks with medical supplies to Matanzas, Cardenas, Sagua La Grande and other towns. The A. B. C. Society helped the army keep order, set up bread lines and supply drinking water.

The communications department at Havana was informed last night that 35 persons died at Cristo Rey, summer resort of the north coast of Santa Clara province. Three of four sugar-laden schooners missing from Cardenas Bay were still unreported. The other sank with a loss of at least three lives.

SPORT SLANTS

By ALAN J. COULD  
(Associated Press Sports Editor.)

It may be the lure of easy money, or the lack of them, but in either case it does seem that Uncle Sam has a lot of difficulty maintaining any consistency of a team for his boys and girls, from one Olympiad to another.

When other countries develop world champion athletes, they generally try to keep them in competition. The faces and achievements of foreign stars grow familiar to an old Olympic tourist like myself. It is gratifying to see performers like Douglas Lowe or Pharoah Nurm repeat. But for the present proof that Nurm really had done what a flock of other stars have long been suspected of doing—profiting from some of their excursions—the celebrated Finn would have participated in the Olympics for the fourth time in a row.

Since the wartime interval, on the other hand, how many American track stars have repeated Olympic conquests? Exactly one, Dr. Clarence L. (Bud) Houser, the Californian who topped the discus throwers in 1924 and 1928 before retiring to his dental practice. There have been others who tried to double up, like Morgan Taylor in the 400-meter hurdles, Charles Paddock in the sprints, Lee Barnes in the pole vault, but even they have been the exceptions.

**Hausch Turns Pro**  
The latest of the 1932 Olympic gold medal winners to forsake amateur ranks is James Aloysius Hausch, who has signed to play professional football this season with the Chicago Cardinals.

It was on the gridiron that "Jarring Jim" first attracted athletic notice, but Americans long will remember his feat of breaking the world record in the Olympic decathlon last summer. Since then his record has twice been surpassed by a German, Hans Heinrich Slevert, who in keeping with European customs will preserve his amateur status for the glory of the Olympiad in the next Olympiad at Berlin.

Look over the rest of the list of American Olympic champions: Eddie Tolan, double sprint winner, is through as an amateur. Ralph Hill, closer than a gnat's eyelash to America's first 5,000 meter triumph, has quit competition to teach school. Accidents ended the racing career of Bill Carr and the life of George Salting, high hurdles champion. Babe Didrikson turned "pro" and Buster Crabbe, swimming winner, went into the movies.

**Tennis Flurry Over.**  
Meanwhile the flurry over our tennis champions, notably H. Ellisworth Vines, seems to have blown over for the season, with no one's amateur reputation damaged to any extent and nothing wasted but a few thousand words of sportspage speculation.  
Only one specific commercial offer was made to Vines, and acknowledged by him, but it developed that even this was based merely on a bid for ballhoo. Once the tennis governors satisfied themselves as to this, they apparently dismissed the case without so much as giving the boys a chance to make another story out of it.  
Vines may, of course, eventually turn pro. That is his business to decide about, but neither his 1933 record nor the future of professional tennis seem calculated to inspire much inducement to him.

Week-End Sports In Brief Review

Natural Enough

—By Pap

Tagging Major League Bases

By HERBERT W. BARKER  
(Associated Press Sports Writer)

Emerging from their critical series at Boston with an eight game lead, the New York Giants returned to Coogan's Bluff today for a Labor Day double-header with the Phillies before heading into the west for their last jaunt of the year across the Alleghenies.

The Giants left the Braves floundering in third place, with only one victory and a tie to show for their six-game encounter with the league leaders.

The victory came Thursday in the opening clash, the tie yesterday, but in between were four successive defeats. Only five games out of first place after Thursday's triumph, the Braves not only had dropped back to a point nine games behind the Terrymen but had surrendered second place to the Pittsburgh Pirates who will attempt to halt the Giants in a five-game series opening in Pittsburgh tomorrow.

Old "Doll" Luque, ancient relief pitcher, was the hero of the double-barreled Boston finale yesterday as the Giants took the first game in 14 innings, 4-3, and fought the Braves to a 4-all tie in the nightcap, halted in the ninth innings by the Massachusetts 6:30 o'clock Sunday law.

Relieving Bill Shores in the seventh, the Cuban veteran held the tribe to six hits in the last eight frames and broke up the game himself with a single that drove home Travis Jackson with the winning run in the 14th. In the second game the Braves nipped Roy Parmelee for eight hits and three runs in six innings, smacked Glenn Spencer for the tying run in the last half of the eighth but Luque, summoned in from the bullpen with two out in that frame, shut off that rally cold and had two men out in the ninth when the game was called.

A crowd of 49,000 saw the double bill, bringing the total for the four-day series to about 143,000.  
Meanwhile, Red Luque stopped Pittsburgh's winning streak at eight in a row as the Cincinnati Reds earned an easy 9-3 decision. The

Blow To Giants

Reds punched six hits with a pass, a hit batsman, an error and a long fly for eight runs off Ralph Birkhofer and White Hoyt in the fifth and sixth innings. Dazzy Vance's old spell over the Chicago Cubs held good again and the St. Louis Cardinals held on third place and pull the Cards to within half a game of the fourth place Cubs. Vance fanned nine men and scattered eight hits.

In the American League, Washington's lead over the idle New York Yankees was advanced to eight and a half games as the Senators turned back the Boston Red Sox, 3-2, on Cliff Bolton's pinch single in the ninth. Behind Wes Ferrell, the Cleveland Indians trounced the Chicago White Sox, 14-3, collecting 17 hits. The St. Louis Browns won the first game of a double-header from Detroit, 2-1, but the second ended in a 5-6 tie, darkness halting the struggle after nine innings.

Vines Faces Foes In Last Stand

Forest Hills, N. Y., Sept. 4 (AP).—Ellsworth Vines' bid for his third straight national singles tennis championship this week presents the Californian with one last chance to save something out of the wreckage of a disastrous campaign this year. Dethroned by Jack Crawford as British champion, beaten by Fred Perry and Bunny Austin in the Davis Cup interzone finals, walloped by Frank Shields at Newport and Shorn from the national doubles crown he held with Keith Gledhill, Vines must win this week or write off the season as a total loss.

The champion drew a first round bye and was to open his title defense in a second round match with Ray Palmer of Malibu, N. Y., today. Crawford, likewise was to make his initial start in a second round encounter with Julius Seligson of New York who was intercollegiate champion while a student at Lehigh. Shields and Perry, both of whom won impressively on Saturday, were matched against John Nogrady of New York and Robert Bryan of Chattanooga respectively. The twenty-six first round matches played Saturday cut the field to 64.

Major League LEADERS

By The Associated Press  
(Including yesterday's games)

Table with 2 columns: Team, Runs, Hits, Errors. Rows include Philadelphia, Boston, St. Louis, Cincinnati, New York, Washington, Chicago, Baltimore, Montreal, Toronto, Rochester, Jersey City.

HOME RUN STANDING

Table with 2 columns: Player, Team, Runs. Rows include Ferrell, Indians; Fox, Athletics; Ruth, Yankees; Berger, Braves; Klein, Phillies; Gehrig, Yankees.

League Totals

Table with 2 columns: American, National, Total. Rows include Runs, Hits, Errors.

Charting Coasts of Labrador

Charts are being made for the first time of the dangerous coasts of Labrador by Challenger, the survey ship of the British navy. It is estimated that it will take 50 years to complete the survey.

STANDINGS TODAY

Table with 4 columns: Team, Won, Lost, Pct. Rows include New York, Pittsburgh, Boston, Chicago, St. Louis, Brooklyn, Philadelphia, Cincinnati.

Table with 4 columns: Team, Won, Lost, Pct. Rows include Washington, New York, Cleveland, Philadelphia, Detroit, Chicago, Boston, St. Louis.

Table with 4 columns: Team, Won, Lost, Pct. Rows include Newark, Rochester, Baltimore, Toronto, Montreal, Buffalo, Albany, Jersey City.

YESTERDAY'S RESULTS

Table with 2 columns: Team 1, Team 2, Score. Rows include New York 4, Boston 3; New York 4, Boston 4; Cincinnati 3, Pittsburgh 3; St. Louis 3, Chicago 1; Philadelphia-Brooklyn, rain.

GAMES TODAY

New Army Coach Puzzled Over Team

By EDWARD J. NEIL  
Associated Press Sports Writer.

West Point, N. Y.—As Lt. Garrison H. Davidson, late of the Engineers' Corps, scratches his head and puzzles over a football roll comprising chiefly for its absence, he has one remark that fits the situation perfectly: "No matter what happens," he says, "it will give me no gray hairs."

No matter what happens to Army's football team this fall and to "Gard" Davidson, successor to Major Ralph L. Sasse as head coach, it can't give him gray hair. It's already gray and has been for years.  
Davidson has no particular problem in this, his first head coaching venture, because his entire eleven is a problem. If any one problem is smaller than another, it's the backfield where Travis Brown remains his No. 1 blocking back, Joe Stancook is at No. 2, Jack Buckler at No. 3, where most of the running, passing and kicking is done, and Paul Johnson at No. 4, normally the quarterback post, but numbered like the rest in Army's single wing back Warner style formations. All saw service last year but only Brown was a regular.

Along with Maj. Sasse and Maj. Phil Fleming, graduate manager, Army lost eight of eleven regulars by graduation and received no newcomers to fill the gaps. Dick King, a grand end; Larry Lincoln and Jack Armstrong, tackles; Milt Summerfelt, All-American guard, and Roy Evans, center, moved into the regular army, leaving only Captain Harry Jablonsky at one guard, Pete Kopsak, at one end, and Brown in the backfield of last year's starting eleven.

To add to Davidson's predicament, Army takes on Illinois in Cleveland and Yale at New Haven on October's last two Saturdays, Harvard at Cambridge Nov. 11, Navy at Philadelphia Nov. 25 and Notre Dame in New York Dec. 2.  
"We'll be mighty light in weight," said Davidson. "We'll average about 175 and concede poundage to every major team we meet. A lot will depend upon how we escape injuries. All I can do is move last year's second stringers into starting positions this year and hope for the best."

PRESENTS MESS OF TROUT TO PRESIDENT ROOSEVELT

Shoken, Sept. 4—Wednesday Emil Brunell and Thomas Spencer, the Damon and Pythias of local trout fishermen, motored to Hyde Park and presented a mess of 48 fine brown trout to President Roosevelt. The fish, which were caught in one day in the upper Esopus and tributaries, ranged from eight to ten inches in length, and, as Mr. Brunell expressed it, "the eyes of the Roosevelt's cook, Mary, opened wide with surprise and appreciation as she saw the mess of Catskill Mountain beauties laid out on her kitchen table."  
The prosperous fishing firm of Brunell & Spencer keep up their successful catches of trout as the season wanes with Mr. Brunell striving heroically to approximate the Spencer tally, and the Old Maestro still stoutly asserting that the only flaw in his angling pleasures this season has been the legal limit as to number and weight of trout per day. It is thought by some that the scarcity of fish-worms in the north reservoir country this season—a condition frequently noted by strangers stopping here to dig bait—is attributable in part to the great quantities of the invertebrate that Colonel Spencer uses in acquiring his phenomenal catches of brook trout during the summer, it being a well known fact that the Spencer luck is invariably attained without the use of flies or other artificial lures.

GRAPHIC GOLF

SPOON USEFUL IN ROUGH GRASS

THERE seems to be a hesitancy on the part of most golfers to resort to the spoon when a caddy lie in the fairway confronts them or in rough grass. Generally they will pin their chances on some straight faced iron in preference. Perhaps just as generally their shot will end disastrously. For the straight faced iron particularly is a difficult club in the hands of any but the expert player. All right off the tee, it takes considerable power to play it efficiently from heavy grass. In deep cover a dry contact is almost impossible because the juice of the smashed plants highly lubricates the face of the iron. The ball, locking up, is thus hard to control. The resilient face of the spoon will take a much better hold in such circumstances. Another thing in its favor is that it has more loft than an iron club for the same range and can raise the ball more quickly from the long grass and set it down with but little roll.

RAIN HALTS SUNDAY AND HOLIDAY GAMES

Sunday's heavy rain, that continued today, caused the postponement of baseball games scheduled for yesterday and this afternoon.

PERPETUAL MOTION

"I've been looking first and foremost for my husband," said her husband.  
"I have been round to all the best agencies in the town trying to find a maid," she replied.  
"Were you successful?" he asked.  
"Yes," she replied. "I found three."  
"Three?" he echoed, amazed.  
"Yes, dear, you must be out of your head."  
"No, dear," she sighed. "I'm all right. You see, one comes from New York, one from the city and the other from the country."

Unappreciated Authors

"The Greenmills are distinctly weary in their parents," said Mr. Jones to a neighbor. "The daughter writes poetry nobody will print, the son writes plays nobody will act, and the mother writes novels nobody will read."

Wanted to Be Right

Mother—You naughty girl! You have eaten every cookie there was on that plate and I told you you may have only three.  
Small Daughter—Yes, mother, you didn't tell me which three, so you had to eat all to be sure to get the right ones.

He Wouldn't Like It

She was in Alaska looking over for farm. After admitting a beaming silver specimen, she asked: "Just how many times can a fox be skinned?"  
"Three times, madam," said a guide bravely. "Any more than that would spoil his disposition."

How to Torture Your Fiancee

"What made you quarrel with me?"  
"Well, he proposed to me again last night."  
"Where was the harm in that?"  
"My dear, I had accepted him the night before."

TOTAL LOSS

Anything for a Family Reunion

"I'm thinking of opening a movie theater."  
"Well, there's good money in the business."  
"It isn't the money so much; but I like to see my wife and kids once a while."

Such Is Life

"It sometimes seems as though I've wicked get along better than the right," sighed the discouraged man.  
"Yes," replied the other one, "that seems like a downright shame."

"Natural History"

Teacher—A biped is anything that goes on two feet. John, can you name one?  
John—Yes, ma'am, a pair of scissors.

Call the Sheriff

"Shush!" said the young man who had fed the group of boresome debutantes. "I'm a fugitive from a Ju gang!"

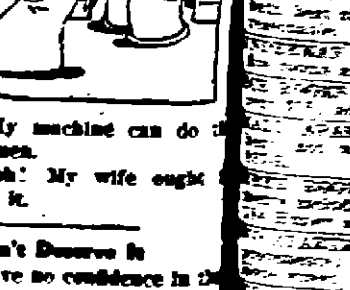

Cologne of the Brain

Heard in Panning—"A lot of brains have queer ideas about banking."  
"So have a lot of bankers,"—Buffet Evening News.

Educational Limitations

"How soon shall I know anything after I come out of the anesthetic?"  
"Well, that's expecting a lot from an anesthetic."—Boys' Life.

LOST CHANCE

Don't Deserve It

Blaise—I have no confidence in the man we just passed.  
John—Yeah? Why not?  
Blaise—He's a confidence man.

Yesterday's STARS

(By The Associated Press)

Adolfo Luque, Giants—Pitched effective relief ball and singled to drive in winning run in 14-inning victory over Braves.

Cliff Bolton, Senators—Hit pinch single in ninth to defeat Red Sox.

Dazzy Vance, Cardinals—Struck out nine and held Cubs to eight scattered hits.

Red Lucas, Reds—Broke Pittsburgh's eight-game winning streak.

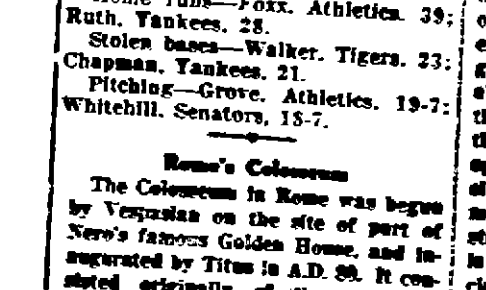

GUS MORELAND

JOHNNY FISHER

Now Somerville, the Canadian who sneaked in and grabbed this country's prized amateur golf crown a year ago, faces a double hazard in the big meet starting at Cincinnati Sept. 11. The course has been thought of as the site of part of New's famous Golden Home, and inaugurated by Titus in A.D. 50. It consisted originally of three crowded stories of stone and an upper gallery, originally of wood, which was rebuilt of stone in the present form sometime in the Third century. The Colosseum probably seated between 40,000 and 50,000 people. It is elliptical in plan, with its long axis 615 feet and its short axis 510 feet; its area, 281 feet long and 177 feet wide. Its total height to the top of the Third century stone screen wall is about 160 feet.

There's Trouble Ahead For "Sandy"

JOHNNY VERGEZ

JOHNNY GOODMAN

Johnny Vergez, regular third baseman of the league leading New York Giants, who was operated upon for appendicitis at Boston and is out for the remainder of the season.

Charting Coasts of Labrador  
Charts are being made for the first time of the dangerous coasts of Labrador by Challenger, the survey ship of the British navy. It is estimated that it will take 50 years to complete the survey.

The Temperature

The lowest temperature registered by the Freeman thermometer last night was 46 degrees. The highest point reached up until noon today was 77 degrees.

Weather Forecast

Washington, Sept. 4.—Eastern New York.—Cloudy with occasional showers. Tuesday possible occasional showers, not much change in temperature.

## Man's Body Seen In Hudson River

The body of an unknown man was seen floating in the Hudson river Sunday morning, shortly before noon by a man and a boy out motorboating on the river and they immediately notified the sheriff's office of what they had seen.

The body was also seen by the crew of the Ithaca ferry and word telephoned to police headquarters.

The body when seen was floating in the river near the lighthouse. The body was said to be that of a dark-haired man.

Deputy Sheriff Charles McCullough and State Trooper Paul General searched for the body that afternoon and cruised up and down the river in a motorboat, but without success.

No man missing has been reported lately to either the sheriff's office or police headquarters, and the body is presumed to be that of a stranger.

### The Lido in Italy

Italy's noted bathing beach, the Lido, lies but a short distance from the heart of Venice, and without this chain of low sand islands the Venice of today would never have been born. It was in the Fifth century A. D. that German barbarians swept down over Italy and inhabitants of the mainland sought refuge on the Lido, but the ease with which these islands could be attacked by enemy navies led to an exodus in 800 to the present site of Venice which lies between Lido and the mainland.

## BUSINESS NOTICES

**MASTEN & STRUBEL**  
Local and Long Distance Moving.  
742 Broadway, Phone 2212.

When it's trucking, local or long distance, call 885. FINN'S Baggage Express, 31 Clinton avenue.

Chiropractor, EDWARD JOHNSON, 65 St. James street. Phone 764.

## POISONED BREAD LEFT BY SUICIDE FATAL TO WOMAN

Peculiarly Swallows Half of Roll in New York Restaurant.

New York.—Two persons were taken ill at almost the same moment in a restaurant at Broadway and One Hundred Fourth street. One was a man, the other a woman. They were strangers.

The man died within a few minutes in the restaurant wash room. The woman died an hour later in Knickerbocker hospital. Autopsies disclosed that both deaths had been caused by cyanide poisoning.

Detectives were of the opinion that the man had committed suicide and that the woman's peculiarism had betrayed her into becoming an unwitting companion in that act.

The man was Henry Jellinek, fifty years old, an automobile mechanic in business for himself. He had a wife and eighteen-year-old son, the latter a student at New York university. Jellinek, the police learned, had been in ill health for several weeks, and was worried over business conditions.

The woman, Lillian Rosenfeld, forty-three years old, lived by herself in a dank cellar apartment of two rooms. She was known there as Lillian Fields. She was a daughter of Simon S. Rosenfeld, a Boston and New York real estate man, who died twelve years ago.

Appeared Penniless; Had Wealth.

So far as anyone in the house knew, Lillian Fields was almost penniless and had neither relatives nor friends. The janitor, on finding her sleeping in the hallway, obtained permission for her to sleep in the cellar apartment.

Lillian Fields, the janitor said, was always complaining of poverty; begging him for the scraps he had left over at meal time; rummaging in ash cans for anything she could salvage. The only furnishings of her apartment were a rickety bedstead with no mattress and a battered red plush sofa she had found in a vacant lot. And piled high around the walls were hundreds of cardboard boxes.

This was what detectives found when they broke through the window recently. But it was not all. At the time she was stricken in the restaurant they had found on her person a bank book. It showed deposits of \$4,000 in a savings bank. Hunting among the contents of the boxes they found five more bank books. These showed deposits aggregating \$41,000 in other savings banks. Among them was a slip of paper which read:

"In case of accident to Lillian Fields please notify Della Rosenfeld of 38 West One Hundred Twenty-Sixth street."

Identified by Sister.  
Della Rosenfeld identified the dead woman as her sister. They had not seen each other for years, she said. Her father at his death, she explained, had left them each \$15,000, and soon afterwards they had quarreled because Lillian accused her of being "too extravagant."

It is the theory of the police that Lillian Rosenfeld went to the restaurant—a Horn & Hardart automatic—in the hope of finding enough scraps on the plates to save her the expense of buying breakfast, and this is what occurred:

Jellinek, bent upon taking poison, entered the restaurant, dropped a nickel in the slot, and obtained two poppy seed rolls. One of these he broke open, then poured a quantity of cyanide into it; the other he left untouched on the plate. He had eaten only half of the poisoned roll when he was taken ill and went to the wash room. Then Lillian Rosenfeld passed the table. Seeing the rolls on the table, she snatched up the whole one and slipped it into a paper bag. The other she devoured.

## Murder Suspect Climbs Gallows Rope to Freedom

Mobile, Ala.—Using the hangman's rope, stored in the jail between executions, a prisoner charged with murder has escaped and is at large in Mobile county. The prisoner, J. W. Owen, twenty-seven, charged with murder at Leakeville, Miss., escaped and Mississippi authorities followed his trail to the Mobile county line. Alabama officials here were advised.

Owen is charged with the murder of Joseph Smith. The Mississippi officers said he escaped from his cell and, using the hangman's rope, climbed to the cupola of the prison. He broke a window and with the aid of twisted blankets let himself down to the ground.

## Husband Slashes Tires, Gets 40 Days in Jail

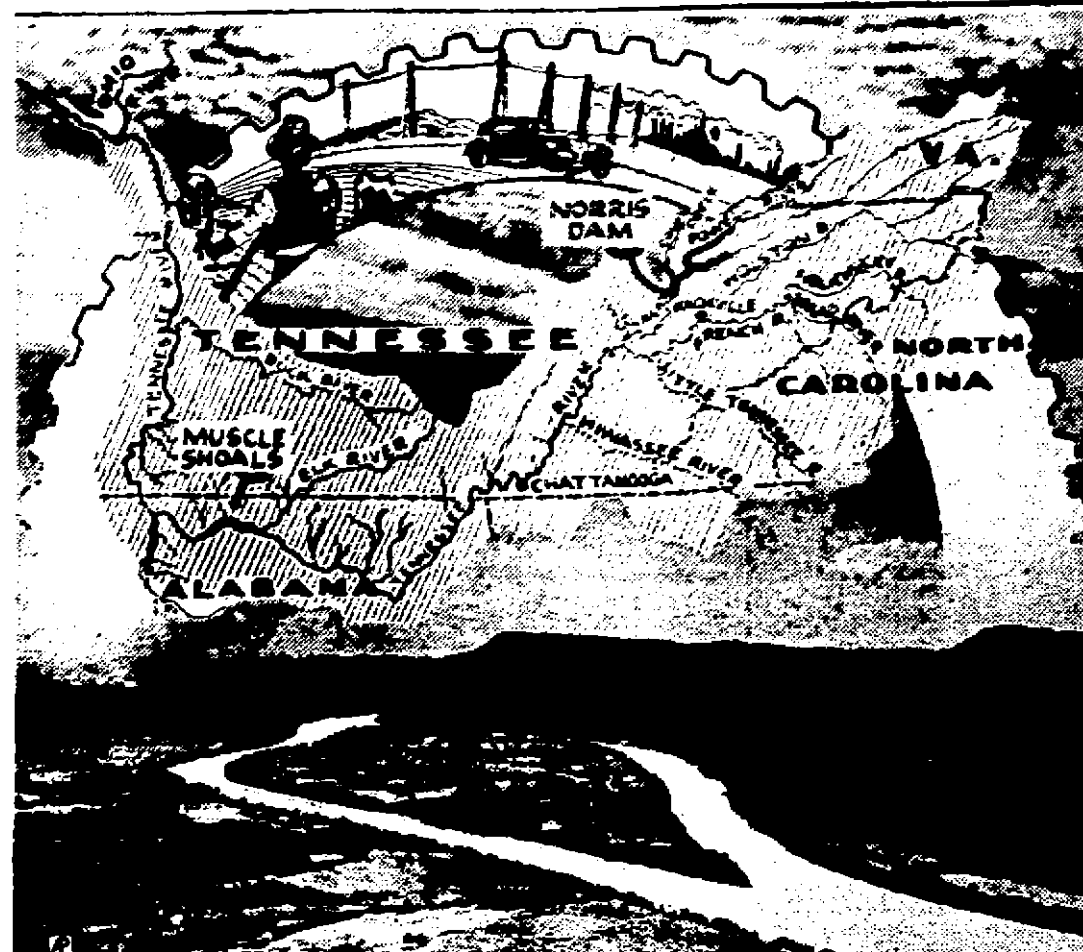

Blackfoot, Idaho.—Effective but inconvenient was the method used by Loren M. Wheeler to prevent his wife from using their car. He slit all four tires. Mrs. Wheeler filed a charge of malicious destruction of property and Judge George R. Bailey said he should think over the act in jail for forty days.

## Dead Horse for Live One

Courtland, Kan.—Funny things happen "way out West in Kansas." A farmer traded a live horse for a dead one. One had lost three horses and was unable to purchase more. A neighbor insisted on giving him a live one and then took his team to haul the carcass of the dead horse away.

## Power "Rainbow" May Remold Pioneer Civilization

Hiding rainbow-like out of the plans of the Tennessee Valley Authority for development of the vast basin is the promise of a power-swing transformation of those parts of the area shown above which are as yet untouched by modern progress. The map shows location of Norris dam at Cove creek and the great Muscle Shoals dam. Below is a view of the Tennessee river near Chattanooga.

## Washington 24th State Voting Repeal

Washington's vote favoring repeal of the Eighteenth amendment made that state the twenty-fourth to register disapproval of national prohibition. The map shows how the states stand so far in the vote on the twenty-first, or repeal, amendment. Election dates set are noted. Thirty-six states must approve the amendment before it can be declared in effect.

## Society Notes

### Camping Party.

The Business Girls' Club of the Y. W. C. A. will hold its annual weekend camping party on Saturday and Sunday, September 9 and 10, at the Y. M. C. A. camp at Glenview. The girls plan to leave the association building directly after lunch on Saturday and a delightful program is being arranged. Miss Jean Ester, general secretary, is assisting the girls with their plans. Those expecting to attend are requested to communicate with the "Y" office by Thursday evening.

### Sweeney-Lynch

New York, Sept. 2 (Special).—James Richard Sweeney, 23, an accountant, formerly of Saugerties and now of 217 West 110th Street, New York, and Miss Eleanor Mary Lynch, 22, a nurse, of 34 Park Place, Brooklyn, will be married September 9 in Brooklyn. The couple obtained their license to marry at the Municipal Building today. Mr. Sweeney, the son of Patrick H. and Catherine Fitzgerald Sweeney, was born in Saugerties. Miss Lynch, born in Brooklyn, is the daughter of John and Ethel Galvin Lynch.

### Tennis-Lawn Party

Mr. and Mrs. A. Ebtinger, professor of Maynard, gave a tennis and lawn party Friday, September 1, to guests of the house and bungalow. The tennis match was won by Alfred Siegel, Jr. At 6 o'clock the guests were seated at a beautiful decorated table with plenty to eat and drink. Miss Hannah Dowd won the table prize. Miss Josephine Koffler won a beautiful cedar chest. Among those present were W. R. Evans, Miss Lillian Ehlers, Peter Fogarty, Miss Josephine Koffler, Mrs. J. C. Koffler, Miss Hannah Dowd, Mr. and Mrs. William W. Evans, Mr. and Mrs. A. G. Siegel, Alfred Siegel, Jr., Miss Adele Ebtinger, Mr. and Mrs. A. Ebtinger. The party lasted until a late hour.

## About the Folks

Mrs. Stewart A. Jones and daughter, Ethel Mae, of 55 Linderman avenue, have returned home after spending ten days at the Century of Progress in Chicago.

Mr. and Mrs. Henry Rockwell and children have returned to Kingston after a delightful visit at Bernhards Bay, stopping at the Soldiers' Home at Oxford to bring Mrs. George Gersoline for a visit.

## Kept In Step By Flashlights

An electrical keyboard that supplants the orchestra conductor has been devised by Prof. Vladimir Karapetoff of Cornell university, who calls it the electrical dirigent. Each music stand has a signal board with six flashlights, four flashing alike on each stand and two giving individual directions to each musician.

## Local Death Record

Adeline S. Bugg Wells, wife of the late Benjamin Wells, died at her home on Broadway in Port Ewen, this morning at 6 o'clock. Funeral will be held at her late residence Wednesday afternoon at 4 o'clock. Interment will be in Port Ewen Cemetery. Surviving her are one sister, Mrs. Elizabeth Ann Van Aken, of Port Ewen and several nieces and nephews.

The funeral of Felecia Montes, who died at the Ulster County Tuberculosis Hospital, Saturday, was held this morning with a high Mass of requiem at St. Peter's Church, offered by the Rev. Henry Herdgen. Interment was in St. Mary's Cemetery. Sunday evening a large delegation from St. Peter's Church visited the chapel of A. Carr & Son, 1 Pearl street, where the body reposed, and recited the Rosary.

Michael Guidice, who formerly resided on the Plank Road, died Saturday in New York city. He is survived by his wife, Florence Guidice, two brothers, Joseph and Fred, and a sister, Mrs. Victor Massala. The funeral will be held from the home of his sister at 35 Oliver street, New York city, Wednesday morning at 10 o'clock and 11 o'clock in St. Joseph's Church, Catherine

## TRAGIC LEGEND OF RICH GOLD STRIKE

Mexican and Scotchman Were Rabbed of Ore by Fate.

Bridgeport, Calif.—A legend of gold, based on the tragedies of a Mexican and a Scotchman, is one of the tales told in isolated Kern county of the high Sierra section.

The story had origin in 1870, when a carefree Mexican, a rider for Jesse Summers, was herding cattle near here. Retreating to the ranch, the Mexican tossed a piece of rock to George Pettigrew, a Scotchman, of the Summers' cowboy band.

There was a strong friendship between the two. Old-timers say that Pettigrew was overjoyed when the Mexican told him he was to be his partner and that they would go out to stake a joint claim on the spot where he had found the rock the next Sunday.

The Scotchman's elation was well founded, for it was discovered that the rock assayed half gold.

But fate took a hand. Rancher Summers ordered the Mexican to accompany a drive of beef cattle to the boom town of Bodie. Hardly had the cattle been disposed of when the Mexican went to one of the gayest establishments. Gambling was in full swing. Drinks flowed.

The stage was set for something to happen. He became embroiled with another Mexican. Knives flashed. The young Mexican fell mortally wounded to the floor. He died without disclosing the secret of his gold lode.

George Pettigrew kept the gold-laden stone for many years. Frequently he searched for a clue to the Mexican's treasure. Pettigrew died, without success. Modern gold seekers also have been unsuccessful.

## Numerous Rare Mineral

**Beds Are Found in Utah**  
Salt Lake City, Utah.—Deposits of corundum and rutilandite have been discovered in Utah near the carnotite beds, chief source of radium in the United States.

The rare chemical element, rutilandite, is the chief constituent of corundum, otherwise known as ravenstone because of its purplish black appearance resembling the feathers of a raven. Edward P. Henderson and Frank L. Hess, Smithsonian geologists, who discovered the new mineral, reported.

Deposits of both minerals were found near remains of ancient organic material, the geologists said, and is practically unknown to science. The relationship of corundum and mineral sedimentation, they admitted, is not clear, since quantities have been found at considerable distance from the nucleus.

The institution further reported finding rutilandite, another rare mineral, in the same district. The substance resembled pitch. Chromium is the principal chemical taken from it.

## "10-Cent Jewelry" Turns Out \$20,000 Necklace

Rye, N. Y.—A few minutes after Mrs. Winthrop H. Aldrich, wife of the president of the Chase National bank of New York city, lost a necklace as she and a party of friends strolled through Playland, county recreation park in Rye, a popcorn vender came along.

"Some five and ten-cent store jewelry," remarked Alphonso S. Howe, the popcorn concessionaire at Playland, when he turned it over to the resort's lost-and-found department.

Insurance company detectives identified the necklace as Mrs. Aldrich's, and said it was worth \$20,000. Howe, married and father of a grown daughter, will receive a \$750 reward for finding it.

## Little Red Hen Adopts Pigs in Lieu of Chicks

Big Prairie, Ohio.—A little red hen on the farm of H. J. Smith flapped her wings in disgust and gave a cackle which was interpreted as meaning that "pigs are pigs."

A month ago the hen began to lay eggs in the pig sty, apparently with the idea of hatching out a family. But members pilfered her eggs every day. Then the litter of pigs was born. It was a poor substitute, but Mrs. Hen adopted them, covering them with her wings when they slept and clucking indignantly when they strayed.

But pigs will be pigs, and since they're grown larger, the little red hen finds that she no longer can keep them under the family wing.

## Four Buildings Lost in Hunt for Lost Canary

New Home, Texas.—A pet canary got lost, starting a chain of circumstances which resulted in destruction by fire of four buildings here. The small son of John Miller, desirous of finding the canary, lit a match and peered behind a hot water tank in his father's barber shop. The match set fire to cobwebs, which in turn ignited some waste. The blaze extended throughout the shop, finally consuming it, together with three adjacent buildings.

The smallest church in Louisiana, called Madonna's Chapel, which accommodates only one person at a time. The church, battered, unattended and weather-beaten, stands in a field between Point Pleasant and Bayou Goult, ten miles from the town of Plaquemine. It is still used for worship. Legend says that, more than 30 years ago, an Italian living in that section had a very sick wife. He prayed for her recovery, promising a shrine if his prayers were answered. The wife got well and so he built the tiny church.

## AGRICULTURE

Early Ab says he wonders how many persons will change their jobs when there are jobs to change.

The 1933 New York apple crop is estimated at 16,425,000 bushels, or 5,772,000 bushels less than last year.

New York state's estimated potato crop is 19,740,000 bushels for 1933 compared to 28,350,000 bushels last year; a 31 per cent decrease.

Three hundred stable flies on a cow may cause her body temperature to rise one degree Fahrenheit; 15,000 house flies increased the cow's temperature one-half a degree.

Three minutes and fifty-eight seconds was the time of the winner in the chopping contest at the forestry field day to cut through a red maple log thirteen and eight-tenths inches thick.

On 63 of the 86 trading days from April 15 to July 3, the prices of 15 basic commodities moved in the same direction as the value of the dollar on either the same or the following day.

A six years' experiment on the ventilation of poultry houses for laying and breeding hens is described in a new Cornell bulletin P-553. The bulletin is available on request to the office of publication of the New York state college of agriculture at Ithaca, New York.

## Cloudburst Brief Shower of Remarkable Intensity

According to scientific definition, a cloudburst is a brief shower of exceptional intensity occurring over a comparatively small area. How hard are the hardest rains? We know that, says a writer in the Boston Herald, on account of the resistance of the air, the largest raindrops never fall faster than about 25 feet a second, while the smallest drops fall very much more slowly; but we do not know how densely crowded together the drops may be in the most intense showers. To eye witnesses the water of a cloudburst often seems to come down in a continuous stream, as if poured out of a bucket, rather than in separate drops, and we cannot say nearly this impression may correspond to the truth.

There is, in short, no theoretical means of determining the maximum amount of rain per unit area that may fall in a given time, and actual measurements of intense showers throw little light on the question. Over the whole surface of the globe upward of 30,000 rain gauges are constantly exposed to catch every shower that falls, but only a few hundred of these gauges are equipped with apparatus for registering the rate of rainfall.

So far as measurements go, the world record for a hard shower is held by one that fell on April 5, 1928, at Opita's camp, about 4,500 feet above sea level in the mountains northeast of Los Angeles. The little weather station at this place is equipped with a self-registering rain gauge. A second gauge, intended for installation at another station, had been placed temporarily a few feet away when the shower occurred. The greatest rate of rainfall registered by one instrument was 1.03 inches in one minute while the other showed 0.92 inch.

## Canada Gets Most Water From Niagara's Supply

Niagara falls is not controlled by Canada. However, a treaty was signed by the United States and Canada providing for the restriction of the amount of water which may be diverted for industrial purposes; the maximum is 20,000 cubic feet per second on the American side and 38,000 cubic feet per second on the Canadian side. This was done in order to preserve the scenic beauty of the falls and also to maintain lake levels. The difference in these allotted amounts is due to the manner in which the water is withdrawn.

As the late William H. Taft (in 1907 secretary of war) said in his decision on the matter: "With respect to the Canadian side, the water is drawn from the river in such a way as not to affect the American falls at all, because the point from which it is drawn is considerably below the level of the water at the point where the waters separate above Goat Island." As the amount of water going over the Horseshoe falls is several times that going over the American falls, it was agreed the diminution of the Horseshoe falls would be imperceptible.

**DIED.**  
WELLS.—At Port Ewen, N. Y., September 4, 1933, Adeline S. Bugg Wells, wife of the late Benjamin Wells. Funeral at residence on Wednesday at 4 p. m. Relatives and friends are invited. Interment in the Port Ewen Cemetery.

**Saw Has 22 Litters**  
Horatio, Ark.—A red Duroc Jersey sow, which has produced 22 litters of pigs, averaging 7 to a litter, is well on her way to a record, believes J. A. Vazemby, farmer and breeder. The pigs have a potential market value of more than \$1,000 at present prices.
